

BIS STANDARDS CLUBS & EDUCATIONAL OUTREACH MANUAL

YOUTH ENGAGEMENT IN SCHOOLS, COLLEGES & TECHNICAL UNIVERSITIES

BIS has established over 10,000 Standards Clubs in high schools and engineering colleges across India to nurture a culture of quality, scientific standardization, and consumer protection among young students.

KEY STANDARDS CLUB ACTIVITIES & FINANCIAL SUPPORT

- **Financial Grant:** BIS provides annual financial grants to each registered school/college club for conducting science and standards learning workshops.
- **Standards Writing Competitions:** Students draft simplified standards for daily classroom objects (pens, desks, school bags, water bottles) to understand clause formulation.
- **Industrial & Laboratory Exposure Visits:** Field trips to BIS Central/Regional laboratories and certified manufacturing factories to witness real-time quality testing.
- **Door-to-Door Consumer Awareness Campaigns:** Student volunteers educate local households on checking HUID on gold jewellery and verifying ISI mark on LPG gas stoves and helmets.
