

BIS GOLD AND SILVER JEWELLERY HALLMARKING GUIDELINES 2024

PURITY SPECIFICATIONS, HUID IDENTIFICATION & CONSUMER ASSURANCE

Hallmarking is the accurate determination and official recording of the proportionate content of precious metal in gold and silver articles to protect consumers against adulteration and fraudulent carats.

THE 3 MANDATORY MARKS ON GOLD JEWELLERY

Hallmark Element	Description & Visual Indicator	Significance for Consumer
1. BIS Logo	Triangular BIS emblem mark	Signifies official Bureau certification of standard purity
2. Purity & Fineness	e.g., 22K916, 18K750, 14K585	Guarantees exact gold percentage (91.6%, 75.0%, 58.5%)
3. 6-digit HUID	6-character alphanumeric code (e.g., AB12CD)	Unique identification tracked in real-time on BIS Care App

PERMISSIBLE GOLD PURITY GRADES UNDER IS 1417

Under Indian Standard IS 1417 (Gold and gold alloys, jewellery/artefacts), hallmarking is permitted in 6 standard purity categories: **24K995** (99.5%), **23K958** (95.8%), **22K916** (91.6%), **20K833** (83.3%), **18K750** (75.0%), and **14K585** (58.5%).

MANDATORY HALLMARKING PHASES ACROSS INDIA

The Central Government has implemented mandatory gold hallmarking in a phased manner:

- **Phase I (June 2021):** 256 districts across India notified.
- **Phase II (April 2022):** 32 additional districts added.
- **Phase III (September 2023):** 55 new districts included.
- **Phase IV (2024 onwards):** Extended to cover all districts having established Assaying & Hallmarking Centres.

STATUTORY EXEMPTIONS FROM MANDATORY HALLMARKING

- 1. Gold articles weighing less than 2 grams.
- 2. Gold jewellery manufactured exclusively for export conforming to foreign buyer specifications.
- 3. Gold jewellery for medical, dental, or scientific research instruments.
- 4. Special manufactured bullion / investment coins certified under Scheme-IV.
